WATER STILL BAD.

Board of Health Jogs Up as Board of Works on the Subject.

The Board of Health thoroughly discussed the water question last night, and decided potable water is concerned. A communication was sent to the Board of Public Works, requesting it to take immediate steps to compel the water company to furnish the city with pure water. Some days ago Mr. Davis complained that he was not being fairly treated by City Sanitarian Ferguson and declared that he (Dr. Ferguson) would not have reported the water bad, if Dr. Morrison, president of the Board of Health, had been home, instead of in Europe. Dr. Morrison has returned, and Dr. Ferguson upon the action taken last night as lication of his course.

A good while ago J. W. Patterson, susof being a smallpox patient, was ordered sent to the pesthouse by the Board of Health. Afterward his clothing was ordered burned. Patterson demanded that the city pay him \$73 for the damage that had been done him. Last night, acting upon a report of the city attorney, the board determined not to allow Patterson's claim.

SHE MUST TESTIFY.

This Morning.

The case of Joseph Kohn, the Hebrew who so viciously beat his wife Tuesday at their picture enlarging studio in the Vinton Bleck, was called for trial in the police court yesterday morning. Mrs. Kohn, alhough formally summoned, failed to appear and the case was continued. Judge lox issued a warrant for the arrest of Mrs. Kohn for contempt and she was located by the police last night, but not arrested, as arrangments were made by which she is church. The bride was Miss Geneve Reyto be in court this morning. It is the usual case of the wife refusing to appear against the husband. In this case, however, a case will probably be made against Kohn on the written evidence of his wife. While he was in the police station she wrote him a letter promising forgiveness if he would agree to quit beating her.

Bids for the bridge across White river at Michigan road were received yesterday by he County Commissioners. There were ourteen bids on the superstructure and leven on the masonry. The board retired with the bids for investigation, and will

make the award later. A Good Word for Platt.

Philadelphia Record. Of Platt it must be said that, had the of the combination that started out him to prevent the nomination of Mcdisplayed the same inflexible purose and courage, the result in all proba-dility would have been quite different from that which is now impending. Platt would hardly have accomplished his immediate and ostensible object in the nomination of Governor Morton, but he might have at-tained that which is possibly nearer to his heart in the defeat of McKinley. It is imsible not to respect the man who re-es to make terms with an apparently victorious opponent, and who stands his ground against all odds and amid the de-gertions of his allies. Platt, too, could have gone to Canossa, by way of Canton, and doubtless made a very advantageous ar-rangement for the delivery of the New York delegation. But he is evidently made of different stuff. Once engaged in a fight | The bride was Miss Emma May Miller, he stays and manfully accepts all the con-sequences of defeat. Throughout his repolitical career he has not been a favored person with Republican administrations at Washington; and yet the fact does not appear to have seriously interfered with his success as a political man-

St. Louis Is Dull.

There is no use disguising the fact, St Louis is duller than a graveyard for a city in the threes of a big national convention. And nowhere is this more evident than in the demeanor of the newspaper represent-atives who are here in force enough to write the history of St. Louis back to the flood, and with artists enough to have it

Washington correspondents who have a speaking acquaintance with all the big guns are the envied of all their confreres. New York journalists, resplendent almost to a man in habiliments of immaculate whiteness, a la George Francis Train, stand around hotel lobbies, look intensely bored and strike picturesque Belascoic attitudes, or flip St. Louis dust from their natty tan shoes. Chicago reporters, in everyday working clothes, meander between the Southern and the Planters' Hotels, drop into the various headquarters in hopes of tapping a solitary politician loaded with an unpublished bit of news, wander out again, and then begin the tour all over again. Country newspaper men ramble around be-wildered, looking in vain for the familiar faces of delegates who are away visiting the cyclone ruins.

Failing to discover the ghost of a piece of really startling news, the army of scribes turns its inquisitorial lances upon its own ranks, and so the question, "What do you know?" becomes the burning ques-tion of the hour, overshadowing tariff, free trade, gold, silver, candidates, platform and everything else. The city is dull. Every bayou of news is choked with post cyclonic sand drift, in the shallows of which the reportorial craft

Hanna the "Man with No Vices." Troy Budget.

Marcus A. Hanna has suddenly become the great intellectual force dominating the Republican party. He will nominate Mc-Kinley at the St. Louis convention, and control all its leading acts. His is the boss Aaron's rod that will swallow up the reds of all the other bosses. This man has shot down like a meteor from the sky. He is cunning, rich in millions, silent, secret, cool, cynical, firm in his purposes, indomitable and unscrupulous. He is a wonderful organizer. He was a pig-iron and street-car man until he went into politics as the McKinley leader. He is not yet fifty years old-pink and healthy as a boy in face-with a massive brain, and a body of hard muscles, brawn and bone. He has no vices. Two years ago, then unknown in politics or in West Virginia, he went to that State, put up all the jobs, and spent a fortune to defeat Wilson, the author of the tariff bill to repeal the McKinley act. He has the face of a cherub, which is habitually wreathed with a smile. He sleeps only five hours of the night and rises as bright and fresh as a baby. Of one thing we may be certain; he will nomone thing we may be certain; he will nominate McKinley. What else this dictator will do with the St. Louis convention we cannot know positively until it is done.

Getting Out of Debt.

Richard Mansfield has made a fairly good showing by reducing his indebtedness \$16,000 within a few months, considering what a poor season it has been. His creditors are acting only with common sense in not pushing a man who will probably be clear of debt and possess a snug bal-ance before the end of 1897. Besides, some consideration is due to one of the greatest exponents of dramatic art on the Englishspeaking stage, whose misfortunes have been largely unavoidable.

Too Expensive.
